

GENERAL EDUCATION TEACHERS NEEDED

We are conducting a research study that will develop a brief, online intervention for teachers. This intervention is designed to promote positive attitudes toward instructing students with autism in the general education classroom.

WHO IS ELIGIBLE?

- Students enrolled in a general education teacher preparation program AND intending on becoming a teacher
- In-service general education teachers working at K-12 public schools

WHAT WILL I BE ASKED TO DO?

- Participation includes taking part in drafts of the online intervention, completing online surveys, and engaging in individual interviews
- Participation in all study activities will take place **via Zoom** and last **approximately 1 hour**
- There are no foreseen risks or personal benefits in participating in this study

INTERESTED?

- Please scan the QR code or click the link below to provide your contact information for more study details
